

Price list 2026/27

Engineering thermal-imaging survey, 3D heat map and analysis · businesses only

All prices are net, in Hungarian forints (HUF), excluding VAT. VAT is currently 27 % and is invoiced separately. Valid for the 2026/27 heating season, until withdrawn [\[confirm\]](#).

Packages

Package	What is included	Price (net)
3D package FLAGSHIP 3D heat map + engineering analysis	Everything in the Quick diagnostic, plus: 3D heat map (browser link), heat-loss breakdown per building element, HVAC, pipework and cold-store observations, ranked action plan (HUF/year, payback), scenario table (e.g. A-items only), 60-minute decision meeting.	from 390,000 HUF up to 1,500 m ² ; 1,501–5,000 m ² : +110 HUF/m ² (5,000 m ² : 775,000 HUF); above 5,000 m ² by quote
Quick diagnostic 2D thermal survey + HUF-quantified loss list	Exterior and interior thermal images, annotated catalogue with matching visual photos, A/B/C-prioritised findings list, estimated loss per finding in HUF per season, indicative fix-cost band, payback; 10–15 page PDF report; 45-minute walkthrough; raw files.	from 190,000 HUF up to 1,000 m ² heated floor area; 1,001–2,000 m ² : +70 HUF/m ² , capped at 260,000 HUF
Roof / PV drone survey only where airspace and permits allow	Radiometric drone survey (suspected wet flat-roof insulation, PV hot spots), thermal orthomosaic, coordinate-referenced defect map, PDF report with recommended follow-up checks. A thermal anomaly is a screening result; the cause may need an on-site check.	from 140,000 HUF up to 2,500 m ² of roof; 2,501–10,000 m ² : +40 HUF/m ²
Annual programme winter survey + summer check + post-repair re-scan	The chosen base package (Quick diagnostic or 3D package), a summer visit (roof, cold store, thermal screening of up to 10 electrical cabinets), one verification re-scan of the repaired items, updated priority list and payback tracking.	from 285,000 HUF from 585,000 HUF Quick-based: from 285,000 HUF · 3D-based: from 585,000 HUF (1.5 × the base package price); area surcharges apply proportionally

Pioneer programme, 2026/27 heating season

LIMITED TO 10 FACILITIES.

For the first 10 facilities: **Quick diagnostic 135,000 HUF** and **3D package 275,000 HUF** (net), instead of the list prices (190,000 and 390,000 HUF). Same scope and quality; we do not hide that it is a pilot.

- Written consent to an anonymised case study (sector, size band, region, anonymised images and data; no name, logo or address). You approve the final text.
- 30-minute feedback interview; one follow-up call after six months on which fixes were done.
- Quick diagnostic up to 2,000 m², 3D package up to 2,500 m²; travel zones 1–2; the annual programme is not discounted.
- Orders by 31 January 2027, surveys by 31 March 2027, weather permitting [\[confirm\]](#).
- The discount does not depend on the content of your feedback; no pre-written testimonials. If you decline the case study: 15 % off the list price [\[confirm\]](#).

Price examples

Warehouse, 2,400 m², 3D package: 390,000 + 900 m² × 110 HUF = **489,000 HUF**; 275,000 HUF in the pioneer programme.

Supermarket, 1,800 m²: 3D package 423,000 HUF; Quick diagnostic 246,000 HUF.

Options and add-ons

Item	Fee (net)	Unit / note
Drone roof survey with a package	110,000 HUF	roof up to 2,500 m ² , same visit; subject to airspace and permits
Electrical cabinet thermal screening with a package	12,000 HUF	per cabinet. Under load; covers opened by your authorised electrician. Not a safety inspection
Electrical cabinet thermal screening, stand-alone	18,000 HUF	per cabinet, minimum 60,000 HUF. Not a safety inspection
Cold store / cellar module	45,000 HUF	per room (up to 300 m ²); door seals, panel joints, evaporator/condenser observations; qualitative loss estimate
Hot-water / district-heating pipe run	60,000 HUF	per started 500 m, minimum 90,000 HUF; buried runs indicative only
Post-repair verification re-scan	70,000 HUF	per visit, repaired items only; at least 30 days after repairs; included once in the annual programme
Additional building, same site and visit	60 %	60 % of the list price
Express delivery (5 working days)	+20 %	standard: 10 working days
Multi-site discount	-10 %	3 or more sites of one company
Upgrade Quick diagnostic to 3D package	200,000 HUF	difference, within 30 days of the Quick diagnostic; area surcharges may differ

Travel (from our base in Tiszavasvári, road distance)

Zone 1	0–40 km	free	Tiszavasvári, Tiszalök (~8 km), Hajdúnánás (~15 km), Hajdúdorog (~21 km), Polgár (~24 km), Nyíregyháza (~29 km), Rakamaz (~30 km), Tiszaújváros (~34 km), Tokaj (~35 km), Újfehértó (~35 km)
Zone 2	40–80 km	15,000 HUF	Nagykálló (~45 km), Hajdúböszörmény (~54 km), Debrecen (north), Szerencs, Mád, Tarcál, Balmazújváros (approx.)
Zone 3	80–130 km	30,000 HUF	Kisvárdá (~85–90 km), Mátészalka and farther; overnight stay by quote
Zone 4	beyond 130 km	90 HUF/km	round trip, for the distance beyond 130 km, plus overnight stay

Several sites in the same zone on the same night share one travel fee. Distances are approximate; the quote fixes them.

Payment, delivery, conditions

Payment	50 % on order, 50 % on delivery of the documentation, by bank transfer within 8 days [confirm]. On-site work starts after the advance has arrived.
Delivery	10 working days from the on-site survey; express: 5 working days (+20 %).
Survey conditions	Heating season, roughly late October to March; indoor–outdoor temperature difference of at least 10 K (preferably 15 K), at least 4 hours after sunset, wind below 5 m/s, no rain, heating stable for at least 24 hours. If the night does not meet these, we reschedule free of charge (up to 2 times [confirm]).
Quote	A quote is valid for 30 days and fixes the final price.
Contract	Under our General Terms and Conditions and the Request for quote and order form (downloadable from the website). Businesses only, for business purposes.

Engineering thermal-imaging survey – not an accredited or certified inspection. It does not replace an energy performance certificate, a statutory energy audit, mandatory electrical-safety or fire-safety inspections; those are carried out by professionals authorised under Hungarian law.

Loss and payback figures are model-based estimates (at 9 October 2026 energy prices, with a range), not guarantees; savings occur only if the fixes are carried out.
